Manufacturer & Exporters of Valves Manifolds & Tube Fittings Ball Valve Needle Valves Pressure Gauge Accessories

## SMIPL Company Profile

Dear Esteemed Partner,

Greetings from Shreemaruti Instruments Pvt Ltd (SMIPL)!

In today's dynamic industrial landscape, Shreemaruti Instruments Pvt Ltd (SMIPL) stands at the forefront of process instrumentation manufacturing, providing solutions that meet global standards. Established in 2015, SMIPL has earned a reputation as a trusted provider of fluid process components, proudly certified by ADNOC (Abu Dhabi National Oil Company) and EIL (Engineers India Limited).

### ➤ About Us

Located in Vapi, Gujarat, SMIPL operates a state-of-the-art manufacturing facility, specialising in industries such as Oil and gas, Pharmaceuticals, Shipbuilding, Petrochemicals, Chemicals, and Cement and steel. Our technical team, with decades of experience, is dedicated to creating solutions that emphasise precision, reliability, and durability. SMIPL's offerings cover various industrial needs, from skid-mounted systems to custom fluid process solutions.

### ➤ Our Commitment to Quality

Quality is our hallmark at SMIPL. Our compliance with ISO 9001:2015, ISO 14001:2015, OHSAS 18001:2007, CE Marking, PED, NSIC, MSME, and Startup India certifications underscores our commitment to excellence. Leading names like ADNOC, EIL, BHEL, MRPL, NPCIL, L&T, ONGC, Thermax, and others trust SMIPL for high-quality and precise solutions.

### ➤ Product Portfolio

Our products are crafted to the highest standards, utilising premium materials such as SS-304, SS-316L, Carbon Steel, Brass, Monel, Inconel, Hastelloy, and speciality alloys. Below is an overview of us

#### comprehensive product range:

- **Tube Fittings & Pipeline Fittings:** Engineered for secure connections.
- **Valves:** Includes Needle, Ball, Check, Gate, and Globe valves.
- **Manifold Valves (2-way, 3-way, 5-way):** Essential for robust process control.
- **Pulsation Dampeners & Syphons:** Protect systems from pressure surges and condensation.
- **Thermowells & flushing Rings, Couplings:** Ensure reliability of temperature measurement and fluid handling.
- **Air Header and condensate Pots, Sampling Cylinders, and Orifice Plate Assemblies** are key components for accurate measurement and control.
- **Pressure Gauges, DPGs, Seal Diaphragm Gauges, Pressure Switches:** Precision devices for pressure regulation.
- **Temperature Gauges, RTDs & Thermocouples:** Accurate solutions for temperature monitoring.
- **Level Gauges and Accessories:** Designed for precise level measurement and monitoring.

Each product undergoes thorough inspection and testing to meet industry standards, ensuring durability and safety across diverse applications.

EIL, ISO 9001-2015, ISO 14001-2015, OHSAS 18001-2007, CE MARKING, PED 2014/68/EU SEP, NSIC, MSME, Approved and Startup India Certified Corporate House & Many More.

## ➤ Innovation and Testing Facilities

SMIPL has invested substantially in advanced testing facilities to maintain a competitive edge in the industry. Our in-house pneumatic and hydrostatic testing capabilities ensure that every product undergoes rigorous quality control and meets client-specific and international standards.

### Technical Capabilities and Testing Facilities

Our state-of-the-art facility has a Computerized SCADA Test Bench and advanced inspection equipment, allowing comprehensive in-house testing aligned with MSS SP-99:2010 and ASTM F1387-2019 standards. Each product is meticulously tested to guarantee reliability, safety, and peak performance.

Testing Capability	Objective	Applicable Standards	Facility Highlights
Hydrostatic Pressure Testing	Confirms pressure-holding capacity	ASTM F1387-2019	SCADA-enabled computerised control for precision
Pneumatic Pressure Testing	Ensure leak-free operation	MSS SP-99:2010	Computerised monitoring for accurate pressure control
Helium Leak Testing	Detect micro-leaks for high-precision	MSS SP-99:2010	High-sensitivity helium testing
Cycle Life Testing	Assesses component durability	MSS SP-99:2010	Automated cycles for operational simulation
Torque Testing	Measures operational force requirements	ASTM F1387-2019	Advanced torque monitoring and calibration
Vibration Testing	Evaluate performance under vibration	ASTM F1387-2019	Programmable vibration for real-world simulation
Thermal Cycling & Shock Testing	Tests resilience to temperature changes	ASTM F1387-2019	Temperature-controlled chambers for detailed analysis
Vacuum Testing	Verifies integrity in low-pressure settings	MSS SP-99:2010	Specialized vacuum chamber testing

EIL, ISO 9001-2015, ISO 14001-2015, OHSAS 18001-2007, CE MARKING, PED 2014/68/EU SEP, NSIC, MSBE, Approved and Startup India Certified Corporate House & Many More.

## ➤ Key Advantages

### 1. Global Reach

SMIPL serves clients worldwide, including India, Europe, South America, UAE, and Malaysia. It ensures that all products meet specific regulatory and quality requirements.

### 2. Customized Solutions

We provide tailored solutions such as skid-mounted systems, valve-mounted skids, control panels, and instrumentation setups to enhance operational efficiency and safety.

### 3. Exclusive Partnerships

Our long-standing partnerships with industry giants enable us to deliver reliable, sophisticated solutions that meet our clients' requirements.

### 4. Research and Development (R&D)

A dedicated R&D team focuses on innovation, customisation, and adapting to the latest industry standards, setting SMIPL apart as a leader.

### 5. Sustainability and Environmental Responsibility

Committed to sustainable practices through eco-friendly manufacturing and regulatory compliance.

### 6. Comprehensive Quality Assurance

SMIPL's QA programs ensure strict adherence to global standards, integrating continuous improvement initiatives to uphold product quality.

## ➤ Future Collaboration Opportunities

SMIPL believes in strategic partnerships to achieve mutual success. By aligning our technical expertise with your project requirements, we can provide:

- Customized Skid Solutions – Engineered for seamless integration in diverse environments.
- Precision Instrumentation – Designed to enhance operational efficiency.
- Process Automation Solutions – Advanced solutions to support the transition towards automation in modern industries.

We're excited to explore how SMIPL's products can support and enhance your projects. Our team is ready to provide detailed product insights, discuss project specifics, and demonstrate how we can add value to your operations.
